President's Message

Hopefully we have come to the end of the hottest part of the summer. The heat makes it difficult to enjoy a tour or driving our A's. A member brought up a good point awhile back that the reason for the tours is to get out our Model A's and enjoy each other's company. If your Model A is not road worthy, you can always show up to ride along in someone else's. It is a great way to see what other members have done with their car and get to know other members better. As you read through the newsletter you will find upcoming events which will give us a chance to hit the road again in anticipation of more favorable weather in the months ahead (KC Auto Museum Cars and Coffee, 8.17.19, 8 a.m., Mystery Tour, 8.24.19, 9 a.m.; Wheels & Dreams Car Show, 9.8.19, 1 p.m.; City Market Car Show, 9-29.19, 10 a.m.; HyVee Car Show, 10.26.19, 10 a.m.; and the Fall Tour 10.21-24.19).

This month at our meeting we will be holding a raffle drawing again. Each even numbered month there will be an item that was donated or a 50/50 cash prize awarded to the raffle winner. All proceeds from this will go directly to our annual donation to the MAFCA/MARC Model A Ford Youth Scholarship Fund. https://www.mafca.com/y_MAF_scholarship.html. See you at the upcoming events and AHOOGA on!

Gary Barr

One of our newer members, Gary Barr was killed Sunday afternoon, August 4, while riding his motorcycle.

Gary Warren Barr, 71, of Independence, Missouri passed away August 4, 2019. He was born August 12, 1947 to Warren F. Barr and Ruth V. (Roberts) Barr. Having lost his parents at an early age Gary was lovingly raised by his Uncle Jake (Barr) and Aunt Louise. He attended William Chrisman High School where he met his high school sweetheart and wife of 50 years Nancy (Borgman), standing in line at the pencil sharpener in Mr. Herrick's Geometry Class. After graduation in 1967 Gary trained in tool and die making before enlisting in the U.S. Navy to serve his country during the Vietnam War, 1968-1972. Before leaving active duty he earned the rank of Petty Officer First Class, and later returned to serve in the Naval Reserve. Gary and Nancy were married July 3, 1969 at the 32nd Street Naval Base Chapel in San Diego, California.

After the Navy, Gary returned to Independence where he and Nancy made their home and lived their married life on Main Street. Gary was a machinist and tool and die maker by trade. He was a union man and worked many years as a member of the CWA for Western Electric and then AT&T, eventually retiring after 32 years from Avaya. Gary was a skilled craftsman, a master repairman, and enjoyed woodworking. He and Nancy spent the past 30 years working to restore the Historic Bryant Home on South Main Street to its original grandeur. He particularly loved collecting and restoring antiques and took great pride in his antique car collection. He was a member of the Heart of America Model A Ford Club, Plain Old A's, and Ararat Shrine Antique Auto Club. He was an active member of First Baptist Church in Independence. He was Master Mason, Past Master of McDonald Lodge #324, and a member of the Ararat Shrine and Scottish Rite. Gary had a great respect for his membership with Boy Scouts of America. He was a member of the Tribe of Mic-O-Say, an Eagle Scout, a Scoutmaster, and later enjoyed scouting with his grandson and helping him to achieve his Eagle Scout ranking. Gary fancied himself as a biker at heart and was a proud H.O.G. (member of the Harley Owners Group). He was a proud Veteran and lifetime member of the VFW Post #1000.

Those who loved Gary will remember him for being one of the hardest working, hardest loving men they've ever known. He loved his wife Nancy most of all, but his family and friends always knew they ran a close second. He was greatly humbled by how God had blessed his life and expressed his gratitude daily. He knew that God had blessed him with many mentors throughout his life so he worked hard to mentor others.

Gary was preceded in death by his parents Warren and Ruth, Brother John (Jack) Barr, and Uncle Jake and Aunt Louise. He is survived by his wife Nancy, daughters Jennifer Rentfro (Aaron) and Christina Leakey (Brian), both of Independence; and grandchildren Madalyn Leakey, Jessup Leakey and Kennedy Rentfro.

In lieu of flowers the family suggests contributions to the First Baptist Church 1896 Sanctuary Restoration Fund, 500 W. Truman Road, Independence, 64050, or Boy Scouts of America, Heart of America Council Camperships Program, 10210 Holmes Road, Kansas City, MO 64131.

"Free Coffee" HyVee is now giving us free coffee, bring your wife, a friend, your "A", your umbrella and anyone who likes old cars, or just yourself and let's meet for coffee and/or breakfast and talk about our cars at HyVee, 151st and Blackbob. 8:30 a.m.

Tours

Summer has definitely arrived with much warmer temperatures and fewer storms. As for club activities, the last part of July was quiet. My July ended with having cataract surgery on both eyes. The results went well, but going without my glasses has been a unique experience. I've been wearing glasses since I was six years old. I fell naked without them. I should be getting new glasses soon, so everything will be good again.

August activities are the Model A Cruise Day at America's Car Museum, 113th and Strangline Road, August 17th, from 10:00 a.m. to 2:00 p.m. Stop by and join the other Model A'ers for the car show. Saturday, August 24th will be the Annual Mystery Tour. We'll meet at McDonald's, 110th and Metcalf at 8:30 a.m. with the first car leaving at 9:00 a.m. When we all meet at the tour's end, we'll head to lunch. Be sure to bring a co-pilot along to read the instructions for an enjoyable tour.

Ron has finished the route and hotels for the trip to the Gilmore Museum in Hickory Corners, Michigan, September 18 - 26. The trip will include visits to the RV Museum in Elkhart, Indiana, and several auto museums in Auburn, Indiana. We may get lucky and see some fall colors on the trip. If you're interested in going, give us a call or email for information.

Recently on one of the local TV stations they did a segment on the Ewing and Muriel Kaufman's Memorial Garden at 4800 Rockhill Road. It is styled after an European garden, and is on two acres. It has 350 varieties of seasonal annuals and perennials with six fountains. The Kaufman's final resting place is in the gardens. This sounds like it would be a great tour for the club. I'm looking at Saturday, October 5th. We'll meet at a local restaurant for breakfast, and then tour the gardens. Hopefully the weather will be pleasant.

Also don't forget to sign up for Alan and Georgia's Eureka Springs Tour, October 21 - 24. It sounds like it will be a fun trip. See article in this newsletter for hotel details.

Other than the 100th Anniversary of the Leavenworth Veteran's Day Parade, November 11th, I have yet to decide on a Cold Weather Tour. I'm open to some ideas as to where we go.

On a sad note, a member of our club, Gary Barr was tragically killed in a motorcycle accident August 4th. Gary was a good friend of Leroy Rohs who passed away earlier this summer. Gary was part of our KC touring group and a member of the Heart of America Model A Club. He loved to travel, a good restaurant and antique shopping with his wife Nancy. Our condolences are with his wife and daughters. He will be sadly missed.

Before long, the touring season will be over but we still have places to tour in the A's. Come and explore with us.

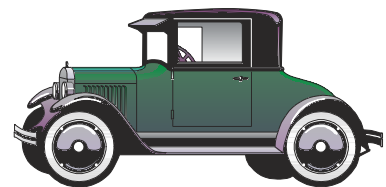

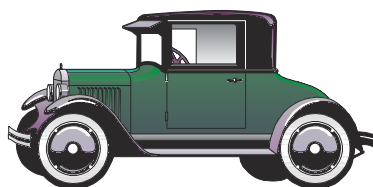

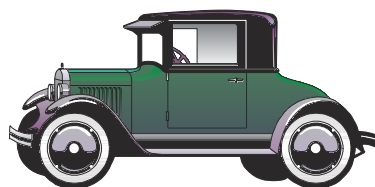

Remember, all are welcome to come with us. Join us soon and have fun with your car.

Happy Model A'ing.

Theresa Guenther, (913) 682-2545

Fall Foliage Tour To Eureka Springs, Arkansas

We are heading to Eureka Springs, Arkansas, on October 21-October 24, 2019, for a Fall Foliage Tour. This is a Monday through Thursday tour. The reason for the weekday tour dates is that October is one of the busiest and scenic months in Eureka Springs and no hotel room blocks were available on weekends. We plan to meet at the McDonalds at 133rd and State Line, Kansas City, Missouri, at 8:30 a.m. and leave at 9:00 a.m. on Monday, October 21, 2019. We will return Thursday, October 24. Our trip will include a visit to the Pea Ridge National Military Park, Turpentine Creek Wildlife Refuge, Thorncrown Chapel, an optional excursion on the Eureka Springs & North Arkansas Railway, an optional dinner buffet and performance of the Great Passion Play on Tuesday evening, October 22. Abundant shopping in Eureka Springs Historic Downtown District shops is also an option. Ron Guenther has graciously consented to escort the group on an evening Ghost Tour of the Crescent Hotel, but his participation in the tour is doubtful.

We have reserved a block of rooms at the Eureka Inn Best Western Hotel, 101 East Van Buren Street, Eureka Springs, AR 72632. Room rate is \$89.95 per night with buffet breakfast included. For Reservations call the hotel direct at 1-479-253-9551. The room block is in the name of Kansas City Model A Club. Reservation cutoff date is September 2, 2019.

A sign-up sheet will be at the June, July and August meetings.

If you have questions, please give me a call.

Jim's Tech Tip

by Jim Cannon,

Nut and Bolt Torque - Part 2

I wrote last month about the basics of tightening a nut or a bolt with a torque wrench. As I mentioned, there are tables of recommended torque values to use for guidance on our cars. Let's continue with that theme.

In general, published torque values (unless it states otherwise) are for tightening a nut or bolt with clean, dry threads. This means the rust has been cleaned off of the bolt or stud threads (I use a wire brush) and they have been wiped dry. No oil, grease or anti-seize compound should be applied to the threads that the nut will be turning on. (A drop of oil can be applied to the surface that a nut is tightening against, such as the boss on the top of a head, where the stud goes through the head.)

If you lubricate the threads on a stud or bolt, it will be too easy to turn the nut as you torque it. So when you stop at your target torque (say 55 ft-lbs for a head nut) you will have stretched the bolt or stud more than 2 times as far as you would with the same torque with dry threads. This will be like over-torquing the nut and can result in the stud or bolt breaking, the stud pulling out of the block, or the head or block cracking, due to too much stress on it. That will ruin your day!

copywrite Frisco illustrationsOf.com/89401

So clean the threads before you start, keep the threads dry, use a torque wrench, and stop pulling the instant the torque wrench clicks. You'll be glad you did. Have a Model A Day!

RENEWAL NOTICE

Please be sure to submit the Club annual renewal form when you pay your dues. The form is used to keep the roster up to date. We have experienced some roster issues. Phone numbers, addresses and emails that changed from the previous roster that were not included in the new roster. The form also provides a paper trail to confirm payment so that the renewal doesn't get lost in the process. This is particularly true with cash payments. If there are no changes from the previous roster just jot down your name and state "NO" on the line requesting if there are any changes. If there are changes then state "YES" and fill in the changes where appropriate. You don't need to repeat what doesn't change. Thanks for your understanding. It makes my job easier.

FOR SALE

At Grandpa's Garage in De Soto, 40 years of building great cars that are now For sale.

Of all the American autos that traveled over the roads in the past decades, perhaps the most recognizable is the Model A Ford.

Driving them leaves no doubt of the vehicles famous past; These little four cylinders are left to take care of the business, so there is great deal of nostalgia if you are looking for it.

Most of my creations wear the blue oval badge, although some may wear my own vision.

So it's no surprise that me at age 93 wants to relive my childhood dreams and love the simplicity of our cherished old Fords.

My rewards have been incredible. But now I wish to share with the many who believe in the importance of the great cars of the past. My cars are quite out of the ordinary in many ways.

The big question for me now is how can I put these in the correct hands for the future. That is my final goal.
